September 22, 2021

Dear Administrators,

I am pleased to announce the Florida Music Education Association (FMEA) Professional Development Conference, ***Unity in Music Education: Building Communities One Note at a Time***, which will take place January 12-15, 2022 at the Tampa Convention Center. The Florida Music Education Association annual conference, the largest professional development event in the southeast for music educators, will include over 200 presentations, concerts, general sessions and special events. There will also be approximately 200 commercial exhibits displaying the latest music materials, supplies, equipment, textbooks, computer programs and much more.

May I ask you to encourage your music teachers to take advantage of this professional development opportunity by providing release time and support for travel and lodging? Please note that all presentations, workshops and events are 100% music education content that can be applied to instructional programs immediately upon return. There are sessions associated with the Next Generation Sunshine State Standards, Florida's Common Core approach and Teacher Evaluation. It is indeed the largest and most ***relevant*** music education professional development opportunity for teachers to impact student learning.

For further information about the 2022 FMEA Professional Development Conference, please do not hesitate to contact us at (850) 878-6844 or visit the FMEA website at FMEA.org. We look forward to providing this unique and meaningful professional service to your music teachers.

Sincerely,

Shelby Chipman, PhD
President
